DIKSO COLOR ASSIST.

Hair subjected to environmental, mechanical stress and chemical treatments can compromise the well-being and integrity of its structure, which becomes uneven and porous.

This is why rebalancing the porosity of the hair before any technical service is essential to guarantee an optimal result, in full respect of its health.

In other words, it is necessary to first treat the hair for it to reach the right porosity so that the colouring, bleaching, perm, or straightening effect is as perfect as possible.

DIKSO COLOR ASSIST PRODUCTS HAVE BEEN FORMULATED TO GUARANTEE A PERFECT RESULT OF THE TECHNICAL TREATMENTS, REGARDLESS OF THE INITIAL CONDITION OF THE HAIR.

POROSITY EQUALISER

The DIKSO COLOR ASSIST. porosity equaliser supports all chemical treatments that affect the hair structure permanently.

CATIONIC SHAMPOO AND CONDITIONER A PH 2.8

complete any type of COLORING or TONING

Applied immediately after colouring, the Cationic Shampoo promotes the closure of the scales and fixes the colour pigments within them, thus prolonging its duration even after subsequent washes.

The pH 2.8 Conditioner balances the physiological pH of skin and hair, providing protection and hydration.

STRAIGHTENING
*

DIKSO

RECOMMENDED BEFORE EVERY TECHNICAL TREATMENT
(BLEACHING, PERM, STRAIGHTENING)
IT IS ESSENTIAL FOR COLOURING:

It **evens the hair porosity**, making the deposit and absorption of pigments along the shaft homogeneous and thereby optimises the quality and duration of the colour. The conditioning action of Mallow and Chamomile Extract that enrich the formula makes the hair visibly hydrated, shiny and brilliant.

Directions for use: shake the bottle well before use. Spray evenly on dry or slightly damp hair and use a comb to facilitate the distribution of the product. Do not rinse and proceed directly with the application of the colour or other technical products.

DIKSON®
PROFESSIONAL

Two fundamental elements in a single product to complete the colour treatment: **effective cleansing and not aggressive** to guarantee the well-being of the hair and scalp, and **an acid pH formula** which sets the colour in the hair by promoting the closure of the hair scales, and helps to prolong its duration even in subsequent washes.

Directions for use: after applying the colouring cream, rinse the hair and apply the shampoo, massaging the scalp and hair. Emulsify and rinse thoroughly. Repeat the application for a more effective action.

Without SLS, petrolatum, dyes, and silicones.

DIKSO COLOR ASSIST.
POST-COLOUR CATIONIC SHAMPOO
**for freshly coloured hair with Mallow
and Chamomile Extracts acidic pH**

Ideal for **rebalancing the physiological pH** of skin and hair after the colouring treatment. Extends the duration and maintains the vivacity of the shades thanks to the rich hydrating and protective formula that adds shine and silkiness.

Directions for use: apply after washing the hair with the Cationic Shampoo, rinsing and towel-drying. Massage and leave in for 5 to 10 minutes. Then rinse.
Without petrolatum or dye.

POST-COLOUR CONDITIONER
for freshly coloured hair
with Mallow and Chamomile extracts
pH 2.8

For the conditioning effect to be more effective on skin and hair, the formulas of the DIKSO COLOR ASSIST. Products are enriched with extracts of **mallow** and **chamomile**, known for their **soothing** and **hydrating** properties.

CHAMOMILE EXTRACT

With its moisturising, soothing and anti-microbial action, it is one of the main ingredients used in cosmetics. It is essential when it is necessary to restore, calm and soothe the **scalp** after a chemical treatment.

In general, it promotes normal wellbeing of the scalp, restoring its natural balance.

SCIENCE & ACCIDENT

DIKSO COLOR ASSIST.

MALLOW EXTRACT

The mallow extract hydrates the hair and is particularly useful for fragile, fine or chemically treated hair. The mucilage of the plant provides a glow, volume and shine. It penetrates the **hair shaft** leaving the hair soft and vigorous.
