Professional hair dryer

IONIC & INFRARED

L I N E A E C C E L S A

TRULY THE PERFECT PARTNER FOR YOU, DESIGNED TO OFFER THE OPTIMUM EXPRESSION OF ALL YOUR TALENT AND PROFESSIONALISM.

The INFINITY 5000 professional hairdryer gently removes wetness, without drying out the hair, thanks to the combined action of negative ions and infrared rays.

"Ionic" technology. Negative ions are generated during use, which protect the hair's natural moisture, preventing frizz and reducing electrostatic effect. For hydrated, soft, shiny hair!

"Infrared" technology. Infrared rays make drying faster, without accentuating the heat; penetrating deep-down, bringing biostimulating action and improving local circulation, promoting the natural nourishment of the hair bulb. For faster, gentler, more intense drying.

BRUSHLESS EXTRA LONG LIFE: over 5000 hours operating time!

Eco-friendly: no electromagnetic disturbance thanks to the absence of brushes in the motor, unlike traditional hairdryers.

Motor constantly generates torque: for maximum performance, guaranteed.

- High power: 2300 W (actual)
- High operating temperature
- Cold air blast button
- 2 speeds, 5 temperature settings
- Professional 3 m cable

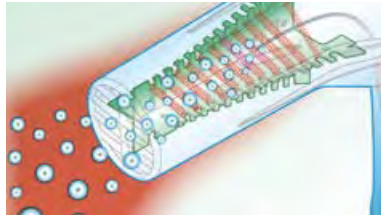

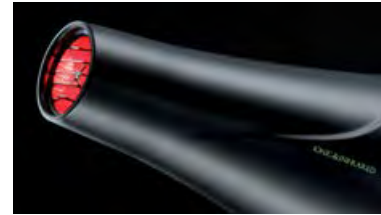

- Removable filter and integrated sound absorbing ring, for noise reduction.

- 2 concentrators supplied

- Infrared LED SYSTEM

- Negative ion generator.

Reduces electrostatic effect. Leaves hair full of vigour. For healthy, strong, glossy hair that brings beauty and style.

- Infrared Led System.

Cuts drying time. New LED INFRARED SYSTEM generator: continual emission of infrared rays. Longer rays significantly increase operating range. Super-reliable and long-lasting.

230-240V ~ 50/60Hz 2200-2300W

LENGTH 25cm	WEIGHT 525gr	LIGHTWEIGHT LIGHT WEIGHT	SPEED I II	ADJUSTABLE TEMPERATURE 5	BRUSHLESS "EXTRA LONG LIFE" MOTOR 5000H BRUSHLESS EXTRA LONG LIFE	2300W EXTREME POWER BRUSHLESS EXTRA LONG LIFE: over 5000 hours operating time!
PROFESSIONAL CABLE 3m	REMOVABLE FILTER REMOVABLE FILTER	COLD AIR BLAST BUTTON COLD AIR BLAST BUTTON	2 CONCENTRATOR 2 CONCENTRATOR	PROFESSIONAL PROFESSIONAL	SILENT SILENT	HEATING CONTROL SYSTEM HEATING CONTROL system
INFRARED LED SYSTEM INFRARED		NEGATIVE IONS - ANTISTATIC IONIC		HEATING CONTROL SYSTEM Intervenes to prevent damage to resistance in the case of excessive heat increase due to, for example, a clogged air filter.		
INFRARED LED SYSTEM Infrared rays make drying faster, without accentuating the heat; penetrating deep-down, bringing biostimulating action and improving local circulation, promoting the natural nourishment of the hair bulb. For faster, gentler, more intense drying.		NEGATIVE IONS - ANTISTATIC The strong presence of negative IONS protects against static, leaving the hair full of vigour. For healthy, strong, glossy hair that brings beauty and style. A - Resistance support with a ceramic and tourmaline coating, to optimise and intensify the negative ion action. B - Negative ion generator.				

müster TRANSFORMER

Professional hair multi-styler
by filipporena

Revolutionary!
 TRANSFORMER IS YOUR PROFESSIONAL SECRET FOR CREATING EXTRAORDINARY, INNOVATIVE AND UNIQUE STYLES!
 STRAIGHTENS, CURLS, SCULPTS, TRANSFORMING ANY STYLE WITH A SINGLE TOOL! With one "click," TRANSFORMER becomes a curling iron or straightener, even while you work!

- Elegant, professional design
- Electronic temperature adjustment: 120-230°C
- Digital display
- Safety feature - switches off automatically when unused for 1 hour
- CERAMIC COATED BARREL WITH ONE CLICK ADJUSTMENT: FROM CURLING IRON TO STRAIGHTENER IN AN INSTANT, WHILE YOU WORK
- Professional 3 m cable
- Rotating contact with cable protection
- Ready-to-use in just 30 seconds.
